25X1A

- (2) This is probably the outer landing beacon. Characteristic of a landing beacon is its location in the extension of the runway and the fact that six wires fitted at the upper end of the mast lead to the ground at a comparatively obtuse angle.
- comparatively obtuse angle.

 (3) This confirms the occupation of the field. One fighter regiment equipped with MiG-15s is believed to be stationed in Briest.
- (4) The motor vehicle numbers probably belong to the ground units of the fighter regiment.
